Nicola L. C. Talbot in his book (Talbot 2012a) says,

"If you have a large number of citations in your document, it's best to use an external bibliographic application, such as `bibtex` or `biber`. However, that is beyond the scope of this book. See, instead, *A Guide to LaTeX* (Kopka and Daly 1995), *The LaTeX Companion* (Goossens et al. 1994) or [Using LaTeX to Write a PhD Thesis](#) (Talbot 2012b)."

Aristotle has authored many influential works. (Aristotle 1929, 1968, 1877, 1907)
