Nicola L. C. Talbot in his book ([Talbot 2012a](#) p. 97) says,

"If you have a large number of citations in your document, it's best to use an external bibliographic application, such as `bibtex` or `biber`. However, that is beyond the scope of this book. See, instead, *A Guide to LaTeX* ([Kopka and Daly 1995](#)), *The LaTeX Companion* ([Goossens, Mittelbach, and Samarin 1994](#)) or [Using LaTeX to Write a PhD Thesis](#) ([Talbot 2012b](#))."

Aristotle has authored many influential works. ([Aristotle 1929](#), [1968](#), [1877](#), [1907](#))
