Nicola L. C. Talbot in his book <sup>1</sup>p. 97 says,

"If you have a large number of citations in your document, it's best to use an external bibliographic application, such as `bibtex` or `biber`. However, that is beyond the scope of this book. See, instead, *A Guide to LaTeX* <sup>2</sup>, *The LaTeX Companion* <sup>3</sup> or [Using LaTeX to Write a PhD Thesis](#) <sup>4</sup>."

Aristotle has authored many influential works. <sup>5-8</sup>
